

REGULATIONS

on the Future Makers: Junior Cup Competition of the Andrey Melnichenko Foundation

1. GENERAL PROVISIONS

1.1. These rules set out the goals and objectives of, as well as the procedure and conditions for, the Future Makers: Junior Cup Competition organized by the Andrey Melnichenko Charitable Foundation, abbreviated as FM:JC (hereinafter referred to as the “Competition”).

1.1.1. The Competition was established by the Andrey Melnichenko Foundation (hereinafter referred to as the “Foundation”) in 2024. The Competition is held with the expert support of its partners: EuroChem JSC, LLC SIBCORE, Siberian Generating Company LLC, GRK LLC and Protech Engineering LLC.

1.1.2. Main goal of the Competition:

To engage school and university students as well as young professionals in solving real engineering and urban development challenges through direct dialogue with businesses and municipal administrations.

1.1.3. Objectives of the Competition:

- to encourage the creative activity of young people interested in scientific and engineering innovation;
- to promote inventive and project-based work and disseminate methodological tools for its support among youth;
- to develop competencies in solving real-world problems requiring scientific and engineering creativity;
- to prepare young people for professional activity in creating new competitive products and technologies.
- to develop project-oriented thinking among young professionals and enhancing their engineering project management skills.

1.1.4. Official languages of the Competition are Russian and English.

2. COMPETITION MANAGEMENT

2.1. The organizer of the competition is the Andrey Melnichenko Foundation (hereinafter referred to as "Organizer"). The Organizer announces the Competition and its conditions, forms the Organising Committee, finances the organisation and implementation of the Competition, and provides information coverage of the Competition on the Foundation’s website, social media, and in the media

2.2. The overall management of the competition is carried out by the organizing committee (hereinafter referred to as the "Committee").

The personal composition of the Organizing Committee is approved by the General Director of the Andrey Melnichenko Foundation.

2.3. The functions of the Committee include:

- Ensuring the organisation and supervision of the Competition;
- Forming the Jury and organising its work;
- Conducting a technical review of preliminary and project applications submitted by

participants to ensure compliance with the formal criteria established in these Regulations;

- Awarding the winners and prize-winners of the Competition;
- Preparing proposals for amendments to these Regulations.

2.4. The winners and/or prize-winners of the qualifying and final stages of the Competition shall be determined by the Jury, which is formed by the Committee in accordance with Section 6 of these Regulations.

3. PARTICIPANTS OF THE COMPETITION

3.1. The competition is open to students from general, secondary vocational, and higher education institutions, as well as for young professionals.

3.2. The following categories of participants are eligible to enter the competition:

3.2.1. School League. Students in grades 5–11 who are citizens of the Russian Federation and are enrolled in general education institutions pursuing basic general education or secondary general education programs at the time of application.

3.2.2. College League. First- to fourth-year students enrolled in secondary vocational education institutions at the time of application who are citizens of the Russian Federation or citizens of the countries listed in Appendix No. 9 to these Regulations.

3.2.3. University League. First- to sixth-year students enrolled in bachelor's degree, specialist degree, or basic higher education programs at higher education institutions, as well as master's and postgraduate students aged 25 or younger at the time of application, who are citizens of the Russian Federation or citizens of the countries listed in Appendix No. 9 to these Regulations.

3.2.4. Young Professionals League.

3.2.4.1. “Start” Category

An employee who has entered employment in their field of study or profession for the first time and meets all of the following criteria:

- Aged 18–25;
- Was hired within two years of obtaining an educational qualification;
- Has between one and three years of continuous employment with the same company or enterprise;
- Is a citizen of the Russian Federation or a citizen of a country listed in Appendix No. 9 to these Regulations.

Additional eligibility criteria for employees (which do not replace the primary criteria for the “Start” category):

- An employee who participated in an employer-sponsored education program and was employed by the enterprise/company during practical training as part of their studies;
- An employee who is a student participating in a dual education program as part of employer-sponsored training;
- An employee who gained work experience outside their field of study while pursuing education in a relevant discipline (e.g., part-time employment in services, sales, etc.) before joining the enterprise/company;
- An employee who graduated in a non-technical discipline (e.g., economics, logistics, etc.) and was hired into a corporate function department in a role corresponding to their

qualification.

3.2.4.2. “Growth” Category

An employee hired to work in their field of study or profession who meets all of the following criteria:

- Aged 26–35;
- Has between one and three years of continuous employment with the same company or enterprise;
- Is a citizen of the Russian Federation or a citizen of a country listed in Appendix No. 9 to these Regulations.

Additional eligibility criteria for employees (which do not replace the primary criteria for the “Growth” category):

- An employee who participated in an employer-sponsored education program and was employed by the enterprise/company during practical training as part of their studies;
- An employee who is a student participating in a dual education program as part of employer-sponsored training;
- An employee who gained work experience outside their field of study while pursuing education in a relevant discipline (e.g., part-time employment in services, sales, etc.) before joining the enterprise;
- An employee who graduated in a non-technical discipline (e.g., economics, logistics, etc.) and was hired into a corporate function department in a role corresponding to their qualification.

3.3. Industries and Areas of Specialization of the Enterprises and Companies

Employing Participants

- Extraction and production of raw materials: coal, oil, gas, mineral resources, etc.;
- Processing of raw materials into finished products: chemical industry, metallurgy, mechanical engineering, etc.;
- Energy sector: electricity generation and thermal power generation;
- Engineering and intellectual activities: development and design of industrial processes and production facilities related to electrical engineering, electronics, mining, chemical engineering, and mechanical engineering, as well as industrial construction, systems engineering, and occupational and industrial safety.

3.4. The format of the Competition provides for both individual and team participation within the same nominations, leagues and categories. Individual participation means that one participant independently prepares a single solution for one of the selected tasks within the Competition’s nominations. Team participation means that a group of participants, united as a team and not exceeding the maximum number of participants established by these Regulations, collectively prepares one solution for one of the selected tasks within the Competition’s nominations.

3.5. Teams may include a mentor. In such cases, the mentor is considered a member of the team. The project team must consist of no more than five members, including a mentor (if one is involved). Each team may have a maximum of one mentor.

3.6. Teams with members belonging to different leagues and categories compete in the older age category corresponding to the oldest team member. The mentor’s age is not taken into account when determining the team’s league and category.

3.7. Participation in the Competition is based on a preliminary application (Appendices

No. 1, 2, 3 to these Regulations) submitted via the online form on the Competition's website at <https://j-cup.fm> (hereinafter – the “Website”) within the timeframe specified in Clause 5.2.1 of these Regulations.

3.8. Each participant submitting a preliminary application must provide consent for the processing of personal data (hereinafter – “Consent”). The Organiser acts as the data operator for all participants' personal data.

3.9. Each participant must review the User Agreement (Consent to Personal Data Processing) and the Privacy Policy available on the Website in the “Documents” section.

3.10. Adult individual participants and team members, including mentors, must fill in the preliminary application using the forms provided in Appendices 1 or 3 to these Regulations. Consent to the processing of personal data for adult participants and mentors is collected automatically through the online submission form. Consent is deemed granted when the participant marks the corresponding checkbox (or clicks the corresponding button) in the application form and/or clicks the “Submit” button on any page of the Website.

3.11. Minor individual participants and team members, including mentors, must complete the preliminary application using the forms provided in Appendices 2 or 3 to these Regulations. Consent to the processing of personal data for minors is collected in mixed form: the Consent template (Appendix 11 to these Regulations) must be downloaded from the “Documents” section of the Website, filled in and signed by the participant's legal representative (parent, guardian, or custodian), scanned, and uploaded via the submission form on the Website. Consent is considered granted upon completion, signature, and upload of the scanned file to the submission form on the Website..

4. NOMINATIONS AND MAIN STAGES OF THE COMPETITION

4.1. The main categories of the competition are:

4.1.1. Engineering and technical challenges provided by the competition partners, referred to as the "Engineering Cup";

4.1.2. Objectives for urban development and infrastructure improvement formulated by municipal administrations in the Russian Federation, referred to as the "Cities Cup".

4.2. Participation process in each nomination of the Competition consists of two main stages:

4.2.1. Qualification stage, where the projects and submissions of participants are evaluated based on submitted documents: a project application describing the solution and an accompanying presentation. Following this stage, winners and prize winners are determined in each nomination, league and category (listed in Appendix 5 of these Regulations). Winners of the qualification stage become finalists for the Competition and qualify for the next stage;

4.2.2. The final stage of the competition, at which the winning projects from the qualifying stage compete and the winners in each category, league and nomination are determined. The list of nominations, leagues and categories can be found in Appendix No. 5 of these Rules. The winners of final stage at each nomination, league and category become the winners of the Competition in the corresponding nomination, league and category.

4.3. All participants of nominations stated in 3.2 of these Regulations are divided into leagues and categories as specified in Appendix No. 5 of these Regulations. Within league and category, participants compete individually or as teams in chosen nominations of the

Competition.

5. COMPETITION PROCEDURE

5.1. The announcement of the Competition shall take place on **November,17 2026**.

5.2. The Competition shall be conducted in the following order:

5.2.1. Stage of submission of preliminary applications — from November,17 2026 to February,1 2027 (until 12:00 UTC+3).

5.2.1.1. The Organiser shall publish information about the Competition on the Internet on the Website (including: the Regulations on the Competition, contact information, and other necessary details), as well as on the Foundation's Website, on social networks, and in the mass media.

5.2.1.2. Participants shall submit preliminary applications for participation in the qualifying stage of the Competition.

5.2.1.3. To submit preliminary applications, participants shall use the preliminary application form (Appendices No. 1–3 to these Regulations) posted on the Website in Russian and English. Preliminary applications shall be submitted in accordance with Clauses 3.6–3.10 of these Regulations.

5.2.1.4. Participants who are citizens of the Russian Federation shall complete the preliminary application in Russian.

5.2.1.5. Other participants shall complete the preliminary application in Russian or English.

5.2.1.6. Preliminary applications for participation in the Competition shall be accepted through the application submission form on the Website <https://j-cup.fm>.

5.2.1.7. All individual participants and participant teams whose preliminary applications were submitted within the established period and meet the formal criteria — completeness of the information provided, correct completion of the application form, and the presence of consent to the processing of personal data — shall have the right to participate in the Competition.

5.2.1.8. The Organizing Committee shall have the right, at its sole discretion, to reject preliminary applications that do not meet the formal criteria.

5.2.2. Stage of project preparation within the Project School — from December,1 2026 till February,1 2027.

5.2.2.1. Participation in the online course of the Project School (hereinafter also referred to as the “Project School”) and preparation of projects describing the proposed solutions for the selected tasks within the Competition nominations shall be carried out in an asynchronous self-directed online format. Individual participants and participant teams shall independently prepare solutions for the selected tasks within the Competition nominations.

5.2.2.2. All participants whose preliminary applications have been admitted to participation in the Competition shall be enrolled on the educational online platform “Vovlekay” (hereinafter – the “Online Platform”) located at <https://vovlekay.online/>. Enrolment on the Online Platform shall take place no later than **December,1 2026** (until 12:00 UTC+3).

5.2.2.3. On the Online Platform, all participants shall complete the online course of the Project School asynchronously in the period from **December,1 2026 to February,1 2027**.

5.2.2.4. The purpose of studying the materials of the Project School is to develop the participants' ability to describe and structure the prepared solutions for the selected tasks within the Competition nominations, taking into account the best existing project practices. The result of the work of an individual participant or a participant team in the Project School shall be a **project application** describing the solution and an accompanying **presentation**.

5.2.2.5. The result of completing the Project School shall be the submission of the prepared documents: a completed full project application and an accompanying presentation. Participation in the Project School shall not be a mandatory condition for participation in the Competition.

5.2.2.6. The project application form (Appendix No. 4 to this Regulations) and the requirements for the accompanying presentation (Appendix No. 8 to these Regulations) are published on the Website in Russian and English.

5.2.2.7. Individual participants and participant teams who are citizens of the Russian Federation shall complete the project application and prepare the accompanying presentation in Russian. Other individual participants and participant teams shall complete the project application and prepare the accompanying presentation in Russian or in English.

5.2.2.8. An individual participant or a participant team shall complete one copy of the project application and prepare one accompanying presentation per individual participant or per team.

5.2.2.9. Each adult individual participant or team member, as a personal data subject, shall attach to his or her project application and accompanying electronic presentation a completed and handwrittenly signed Consent to the Processing of Personal Data for Adult Participants (Appendix No. 10 to these Regulations) in a scanned electronic form.

5.2.2.10. Each minor individual participant or team member, as a personal data subject, shall attach to his or her project application and accompanying electronic presentation a completed and handwrittenly signed by the legal representative of the personal data subject Consent to the Processing of Personal Data (Appendix No. 11 to these Regulations) in a scanned electronic form.

5.2.2.11. Project applications, accompanying presentations, and scanned electronic documents containing Consents to the Processing of Personal Data for participation in the qualifying stage of the Competition shall be accepted by the Organizing Committee by email at jcupfm@aimfond.ru.

5.2.3. Qualifying Stage of the Competition (stage of evaluation of completed project applications and accompanying presentations) - from February,2 2027 to March,2 2027.

5.2.3.1. The qualifying stage of the Competition shall take the form of a remote evaluation of project applications and accompanying presentations by the Organizing Committee and the Jury.

5.2.3.2. All project applications and accompanying presentations submitted within the established timeframe (no later than **February,1 2027**) and in accordance with Clause 5.2.2.11 of these Regulations shall be verified by the Organizing Committee for compliance with the formal criteria (technical verification of applications): completeness of the information provided, completion of all mandatory fields in the project application, presence of an accompanying presentation, and compliance of the accompanying presentation with the requirements (Appendix No. 8 to these Regulations).

5.2.3.3. The technical verification of applications by the Organizing Committee shall be carried out during the period from **February,2 2027 to February,12 2027**.

5.2.3.4. The Organizing Committee shall have the right, at its sole discretion, to reject applications that do not meet the formal criteria of the technical verification.

5.2.3.5. All applications accepted and meeting the formal criteria of the technical verification shall participate in the qualifying stage of the Competition and shall be submitted to the Jury for evaluation.

5.2.3.6. The Jury shall evaluate the project applications and accompanying presentations of participants based on the project evaluation criteria for the qualifying stage of the Competition (Appendix No. 6 to these Regulations).

5.2.3.7. The evaluation of project applications and accompanying presentations by the Jury shall take place during the period from **February, 15 2027 till March, 1 2027**. The announcement of the finalists shall be published on the Website on **March, 4 2027**.

5.2.3.8. Based on the evaluation of all projects participating in the qualifying stage of the Competition, participants of the final stage of the Competition shall be determined in each nomination, league and category (Appendix No. 5 to these Regulations) according to the number of points scored as a result of the project evaluation.

5.2.3.9. Individual participants and participant teams whose projects have been identified as winners of the qualifying stage of the Competition in the respective nominations, leagues and categories shall proceed to the final stage of the Competition. They shall also receive invitations to the final stage and personalised electronic digital certificates confirming their participation in the finals.

5.2.3.10. Individual participants and participant teams whose projects were not identified as winners of the qualifying stage of the Competition shall receive personalised electronic digital certificates confirming their participation in the Competition.

5.2.4. Determination of the Finalists

5.2.4.1. Finalists based on the results of the qualifying stage of the Competition shall be determined separately for each nomination within each league and category.

5.2.4.2. If three or more individual participants or participant teams within a nomination and corresponding league and category have achieved the passing score, only the three highest-scoring participants or teams shall be recognised as finalists, provided they have achieved the minimum qualification threshold of 42 points.

5.2.4.3. If fewer than four individual participants or participant teams within a nomination and corresponding league and category have achieved the passing score, they shall be recognised as finalists. However, if there are no more than two such participants, the final in that league shall not be held; such participants shall be merged with the next higher league within the same nomination. For the senior league, participants shall be merged with the middle league within the same nomination.

5.2.4.4. When leagues are merged, a single ranking shall be formed. Based on this ranking, no more than five individual participants or participant teams with the highest scores shall be admitted to the finals.

5.2.5. Final stage of the Competition.

5.2.5.1. The final stage of the Competition shall take place in **April 2027**.

5.2.5.2. Participants shall submit the final version of their project presentation to the Organising Committee by **April, 7 2027 inclusive** by email at **jcupfm@aimfond.ru**.

No revisions shall be accepted after the specified date.

5.2.5.3. The exact dates and venue of the final stage of the Competition shall be published on the Website no later than **March, 4 2027**.

5.2.5.4. The final stage of the Competition shall take the form of a contest among projects identified as winners of the qualifying stage of the Competition in the respective nominations, leagues and categories and admitted by the Organising Committee and the Jury to participate in the final stage.

5.2.5.5. The competition of projects shall be held within each league and category of each nomination of the Competition (Appendix No. 5 to these Regulations).

5.2.5.6. The final stage of the Competition shall be held in the format of **in-person project defences** by individual participants and participant teams.

5.2.5.7. The in-person defence of projects at the final stage shall take the form of a final presentation accompanied by an electronic presentation. The total time allocated for the presentation of one project, including discussion and responses to questions, shall not exceed **15 minutes** (presentation — up to 10 minutes, discussion and questions — up to 5 minutes).

5.2.5.8. Each final presentation shall be evaluated by the Jury based on the project evaluation criteria for the final stage of the Competition (Appendix No. 7 to these Regulations).

5.2.5.9. In the event of equal scores between evaluated projects, the Jury may, at its discretion, conduct consultations (interviews) with the individual participants and participant teams.

5.2.5.10. The winners of the Competition in each nomination, league and category shall be the individual participants and/or participant teams who have scored the highest number of points as a result of the evaluation of projects in accordance with the established project evaluation criteria for the final stage of the Competition (Appendix No. 7 to these Regulations).

5.2.5.11. The Jury, with the prior approval of the Organising Committee, shall have the right to:

5.2.5.11.1. Recognize as winners of the final stage of the Competition several individual participants and/or participant teams who have scored an equal number of points.

5.2.5.11.2. Approve additional nominations of the Competition and the number of participant projects to be awarded in them.

5.2.6. The winners and prize-winners of the final stage of the Competition shall be awarded **personalised diplomas and valuable prizes** from the **Andrey Melnichenko Foundation** and the **partners of the Competition**.

6. THE JURY

6.1. An independent Jury shall be formed for the evaluation of competition projects submitted by individual participants and participant teams.

6.2. The Jury of the Competition shall use the project evaluation criteria for each stage of the Competition (Appendices No. 6 and No. 7 to these Regulations).

6.3. The project evaluation criteria for each stage of the Competition may be amended or updated by the Organizer at any time during the Competition, but not later than **January, 31 2027**.

6.4. For the qualifying stage of the Competition, the Organizing Committee shall approve the composition of the Jury from among the employees of the Competition partners and the employees of the Organizer. At the discretion of the Organizing Committee, additional Jury members may include representatives of general, secondary vocational and higher education institutions who are not involved in the project work or consultations of the registered participants as mentors, as well as industry experts and practitioners.

6.5. For the final stage of the Competition, the Organizing Committee shall approve the composition of the Jury from among the employees of the Competition partners and the employees of the Organizer. At the discretion of the Organizing Committee, additional Jury members may include representatives of general, secondary vocational and higher education institutions who are not involved in the project work or consultations of the registered participants as mentors, as well as industry experts and practitioners.

6.6. Mentors of teams shall not be entitled to serve as members of the Jury.

6.7. The Jury shall:

6.7.1. Carry out an expert evaluation of the projects submitted to the Competition in accordance with the established project themes and the themes of the nominations;

6.7.2. Determine the winners and prize-winners of the qualifying stage of the Competition in each nomination, league and category in accordance with the project evaluation criteria for the qualifying stage of the Competition (Appendix No. 6 to these Regulations);

6.7.3. Determine the winners and prize-winners of the final stage of the Competition in each nomination, league and category in accordance with the project evaluation criteria for the final stage of the Competition (Appendix No. 7 to these Regulations).

6.8. The Jury's evaluations shall not be disclosed prior to the official announcement of the results.

6.9. The results of the Jury's work in evaluating the projects for each nomination, league and category shall be formalized in minutes.

6.10. After the minutes are drawn up for the qualifying stage of the Competition, the interim results of the Competition shall be summarized (results of the qualifying stage, identification of the winners and prize-winners of the qualifying stage of the Competition in nominations, leagues and categories).

6.11. After the minutes are drawn up for the final stage of the Competition, the final results of the Competition shall be summarised (results of the final stage, identification of the winners and prize-winners of the final stage of the Competition in nominations, leagues and categories). The summarising of the Competition results shall take the form of a ceremonial event during which the winners and prize-winners of the final stage of the Competition shall be announced and awarded.

6.12. The Organiser, the Organising Committee and the Jury shall not be obliged to respond to any requests for additional expert review submitted by any participants of the Competition or their legal representatives at any stage of the Competition.

6.13. Reconsideration of the evaluations made by the Jury is not provided for.

7. FINANCING OF THE COMPETITION

7.1. The financing of the organization and implementation of the Competition, including Competition events and the development, production, and reproduction of award materials (diplomas,

certificates, letters of appreciation, etc.), shall be provided by the Organizer. Decisions regarding incentives or awards within the Competition shall be made at the Organizer's discretion.

7.2. The Organizer shall cover round-trip travel and accommodation expenses during the in-person final stage of the Competition for participants in the School League, College League, and University League specified in Clauses 3.2.1–3.2.3. The financing arrangements include the following:

7.2.1. Travel:

7.2.1.1. The Organizer shall cover tickets for scheduled bus, rail, or air transportation for individual participants and teams of participants, including their mentor:

7.2.1.1.1. From the railway station, airport, or bus station nearest to their place of residence to the city hosting the in-person final stage of the Competition.

7.2.1.1.2. From the city hosting the in-person final stage of the Competition back to the railway station, airport, or bus station nearest to their place of residence.

7.2.2. Accommodation:

7.2.2.1. The Organizer shall provide accommodation for individual participants and teams of participants, including their mentor, in the city hosting the final stage of the Competition.

7.2.2.2. Accommodation expenses shall be covered strictly for the dates corresponding to the official dates of the final stage of the Competition (hereinafter referred to as the "Official Days of the Final Stage of the Competition").

7.3. Round-trip travel and accommodation expenses during the in-person final stage of the Competition for participants in the Young Professionals League specified in Clauses 3.2.4–3.2.5 shall be covered by their employers through official business travel arrangements and reimbursement of the Competition participants' business travel expenses.

7.4. The Organizer shall provide meals for all participants across all leagues, including mentors, during events held on the Official Days of the Final Stage of the Competition.

7.5. The Organizer shall not cover additional expenses incurred by participants or mentors, including:

7.5.1.1. Personal expenses.

7.5.1.2. Transportation from the place of residence to the airport, railway station, or bus station and back.

7.5.1.3. The purchase of replacement tickets if any participant, including a mentor, misses the scheduled departure of their transportation for any reason.

7.5.1.4. Accommodation outside the specified dates of the final stage of the Competition.

7.5.1.5. Accommodation at intermediate stops during transfers or connecting flights.

7.5.1.6. Transportation expenses unrelated to participation in the in-person final stage of the Competition.

7.5.1.7. Charges for baggage exceeding the allowance established by the carrier.

7.5.1.8. Additional services not included in the event program of the final stage of the Competition

8. COPYRIGHT COMPLIANCE

8.1. The Organizer reserves the right to use the competition works of individual participants and participant teams for the purpose of covering the events of the Competition, publishing collections of materials, photo albums, video films, and any other publications about the Competition.

8.2. The rights of the authors of the competition works shall be observed in accordance with the legislation of the Russian Federation in the field of protection of intellectual rights.

9. OTHER

9.1. By submitting an application, the participants confirm their full and unconditional acceptance of these Regulations and all its provisions without exception.

9.2. By submitting an application for participation in the Competition, the participant, acting freely, of his or her own will and in his or her own interest, gives informed and conscious consent to the Organiser (the Andrey Melnichenko Foundation, OGRN 1167700068370, INN 7725335279, KPP 772501001, registered address: 53 Dubininskaya Street, Building 5, Premises VI, Room 6, Moscow 115054, Russian Federation) to process, in documentary and/or electronic form, his or her personal data specified in the application, as well as copies of documents containing information about the aforementioned personal data (if submitted). The processing of personal data and documents containing information about such data shall be carried out by the Organiser for the purposes of organising and publicising the Competition and for subsequent reporting to authorised bodies and donors. Such processing may include collection, systematisation, accumulation, storage, clarification (updating, modification), transfer (including to members of the Organising Committee and the Jury for verification and evaluation of the application), use of the said personal data until the expiration of the retention period of the relevant information or documents containing the aforementioned information, as determined in accordance with the legislation of the Russian Federation, and destruction upon expiration of the period stated. The consent may be withdrawn by the participant in writing by sending a notification by email to contact@aimfond.ru or to the Organiser's registered address: 53 Dubininskaya Street, Building 5, Premises VI, Room 6, Moscow 115054, Russian Federation.

9.3. The Organiser shall have the right to amend or supplement these Regulations at any time during the entire period of the Competition. Participants shall independently monitor any possible amendments or additions to these Regulations. Information on amendments or updates to these Regulations shall be published in the "News" section of the official Website no later than 24 hours after the relevant amendments or updates have been made.

9.4. The Competition may be cancelled at any stage due to force majeure circumstances and/or termination of funding for the Competition.

9.5. The Competition shall be deemed invalid if fewer than three applications meeting all the requirements of these Regulations are registered at any stage of the Competition.

9.6. The rights and obligations in the field of personal data protection, in accordance with the provisions of Federal Law No. 152-FZ of 27 July 2006 "On Personal Data", shall be regulated on the basis of the User Agreement (User's Consent to the Processing of Personal Data) and the Privacy Policy published on the Website. The Organiser shall obtain from each registered participant of the Competition the Consent to the Processing of Personal Data (Appendices No. 10 and 11 to these Regulations).

Appendix № 1
to the Regulations for the Future
Makers: Junior Cup Competition
of Andrey Melnichenko Foundation

**INDIVIDUAL ADULT PARTICIPANT APPLICATION FORM
FOR THE FUTURE MAKERS: JUNIOR CUP COMPETITION
ORGANISED BY THE ANDREY MELNICHENKO FOUNDATION**

Type of participation	
<i>Specify the type of your participation in the competition: "Individual"</i>	
Last Name	
<i>Write your Last name in the nominative case, for example "Ivanov"</i>	
First Name	
<i>Write your name in the nominative case, for example "Ivan"</i>	
Patronymic / Middle Name Other Names	
<i>Write your patronymic in the nominative case, for example "Ivanovich"</i>	
Age	
<i>Please state your age in full years as of the date of application</i>	
Citizenship	
<i>Specify which country you are a citizen of at the time of application, for example: "Russian Federation"</i>	
City of residence	
<i>Please specify the city where you currently reside at the time of applying, for example: "Moscow"</i>	
Educational institution	
<i>Please provide the full name of the educational institution you are currently enrolled in at the time of applying.</i>	
Current level of education	
<i>Please indicate your level of education at the time you applied.</i>	
Year of graduation*	
<i>Enter the year in which you obtained your educational qualification. For Young Professionals League participants only.</i>	
Year of employment*	
<i>Enter the year. For Young Professionals League participants only.</i>	
Length of continuous employment with the same company/enterprise*	
<i>Enter the number of years. For Young Professionals League participants only.</i>	
Job title*	
<i>Enter your current job title. For Young Professionals League participants only.</i>	

Legal name of the employer*	
------------------------------------	--

Enter the legal name of the employing entity, e.g., "GRK LLC". For Young Professionals League participants only.

Industry / specialization area of the employer*	
--	--

Specify the industry or area of specialization listed in Clauses 3.2.4 or 3.2.5 of the Competition Regulations. For Young Professionals League participants only.

Email	
--------------	--

Please provide your contact email address that will be used throughout the duration of the contest.

Phone number	
---------------------	--

Please provide your phone number, as it will be relevant for the duration of the contest.

Social media profile link	
----------------------------------	--

Provide a link to your social media profiles (optional).

Consent to the Processing of Personal Data	
---	--

Confirmation and submission of the Consent shall be carried out by marking the corresponding checkbox (or clicking the relevant button) in the form and/or by clicking the "Submit" button on any page of the Website.

** For Young Professionals League participants only.*

to the Regulations for the Future
Makers: Junior Cup Competition
of Andrey Melnichenko Foundation

**INDIVIDUAL MINOR PARTICIPANT APPLICATION FORM
FOR THE FUTURE MAKERS: JUNIOR CUP COMPETITION
ORGANISED BY THE ANDREY MELNICHENKO
FOUNDATION**

Type of participation	
<i>Specify the type of your participation in the competition: "Individual"</i>	
Last Name	
<i>Write your Last name in the nominative case, for example "Ivanov"</i>	
First Name	
<i>Write your name in the nominative case, for example "Ivan"</i>	
Patronymic / Middle Name Other Names	
<i>Write your patronymic in the nominative case, for example "Ivanovich"</i>	
Age	
<i>Please state your age in full years as of the date of application</i>	
Citizenship	
<i>Specify which country you are a citizen of at the time of application, for example: "Russian Federation"</i>	
City of residence	
<i>Please specify the city where you currently reside at the time of applying, for example: "Moscow"</i>	
Educational institution	
<i>Please provide the full name of the educational institution you are currently enrolled in at the time of applying.</i>	
Current level of education	
<i>Please indicate your level of education at the time you applied.</i>	
Email	
<i>Please provide your contact email address that will be used throughout the duration of the contest.</i>	
Phone number	
<i>Please provide your phone number, as it will be relevant for the duration of the contest.</i>	
Social media profile link	
<i>Provide a link to your social media profiles (optional).</i>	
Consent to the Processing of Personal Data	

Please download the Consent to the Processing of Personal Data for a Minor Participant template from the Documents section of the Competition website at <https://j-cup.fm>, print it out, and have it completed and handwrittenly signed by your legal representative (mother, father, guardian or custodian). Then scan the signed document and upload the scanned file in this field..

to the Regulations for the Future
Makers: Junior Cup Competition
of Andrey Melnichenko Foundation

**TEAM APPLICATION FORM FOR
FUTURE MAKERS: JUNIOR CUP COMPETITION
ORGANISED BY THE ANDREY MELNICHENKO FOUNDATION**

Type of participation	
-----------------------	--

Specify type of participation as "Team"

Team name	
-----------	--

Create and write your team's name.

Number of Team Members	
------------------------	--

Please specify how many people will be in your team..

1. For each adult team member, including the mentor, please complete the following individual section of the form:

Last name	
-----------	--

Please write your Last Name in the nominative case, for example: "Ivanov"

First name	
------------	--

Please write your first name in the nominative case, for example: "Ivan"

Patronymic/Middle name	
------------------------	--

Please write your patronymic in the nominative case, for example: "Ivanovich".

Age	
-----	--

Please indicate your age at the time of application (in full years)

Citizenship	
-------------	--

Please indicate the country which you are a citizen of at the time of application, for example: "Russian Federation"

City of residence	
-------------------	--

Please indicate the city you live in at the time of application, for example: "Moscow"

Educational institution	
-------------------------	--

Please provide the full name of the educational institution where you are studying at the time of application

Current level of education	
----------------------------	--

Please indicate your current level of education at the time of application (school grade / year of study)

Year of graduation*	
---------------------	--

Enter the year in which you obtained your educational qualification. For Young Professionals League participants only.

Year of employment*	
---------------------	--

Enter the year. For Young Professionals League participants only.

Length of continuous employment with the same company/enterprise*	
---	--

Enter the number of years. For Young Professionals League participants only.

Job title*	
------------	--

Enter your current job title. For Young Professionals League participants only.

Legal name of the employer*	
-----------------------------	--

Enter the legal name of the employing entity, e.g., "GRK LLC". For Young Professionals League participants only.

Industry / specialization area of the employer*	
<i>Specify the industry or area of specialization listed in Clauses 3.2.4 or 3.2.5 of the Competition Regulations. For Young Professionals League participants only.</i>	
E-mail	
<i>Please provide your contact email address, valid for the entire duration of the Competition.</i>	
Phone number	
<i>Please provide your phone number, valid for the entire duration of the Competition</i>	
Social media profile link	
<i>Please provide a link to your social media profile (optional)</i>	
Consent to the Processing of Personal Data	
<i>Confirmation and submission of the Consent shall be carried out by marking the corresponding checkbox (or clicking the relevant button) in the form and/or by clicking the "Submit" button on any page of the Website</i>	

**For Young Professionals League only*

2. For each minor team member, including the mentor, please complete the following individual section of the form:

Last name	
<i>Please write your Last Name in the nominative case, for example: "Ivanov"</i>	
First name	
<i>Please write your first name in the nominative case, for example: "Ivan"</i>	
Patronymic/Middle name	
<i>Please write your patronymic in the nominative case, for example: "Ivanovich".</i>	
Age	
<i>Please indicate your age at the time of application (in full years)</i>	
Citizenship	
<i>Please indicate the country which you are a citizen of at the time of application, for example: "Russian Federation"</i>	
City of residence	
<i>Please indicate the city you live in at the time of application, for example: "Moscow"</i>	
Educational institution	
<i>Please provide the full name of the educational institution where you are studying at the time of application</i>	
Current level of education	
<i>Please indicate your current level of education at the time of application (school grade / year of study)</i>	
E-mail	
<i>Please provide your contact email address, valid for the entire duration of the Competition.</i>	
Phone number	
<i>Please provide your phone number, valid for the entire duration of the Competition</i>	
Social media profile link	
<i>Please provide a link to your social media profile (optional)</i>	
Consent to the Processing of Personal Data	
<i>Please download the Consent to the Processing of Personal Data for a Minor Participant template from the Documents section of the Competition website at https://j-cup.fm, print it out, and have it completed and handwrittenly signed by your legal representative (mother, father, guardian or custodian). to the Regulations for the Future
Makers: Junior Cup Competition
of Andrey Melnichenko Foundation

**PROJECT APPLICATION
FOR PARTICIPATION IN THE QUALIFICATION STAGE
OF FUTURE MAKERS JUNIOR CUP COMPETITION
ORGANISED BY ANDREY MELNICHENKO FOUNDATION**

1. Information about the project:

Selected Competition Nomination	<div>Please specify the selected Competition nomination: "Engineering Cup" or "Cities Cup."</div>
Title of the Selected Task	<div>Please indicate the title of the selected task. (The titles of all tasks are published on the Competition Website.)</div>
Type of Participation	<div>Please indicate how you are participating in the Competition: individually or as part of a team. If you are participating as an individual participant, write "Individual." If you are participating as part of a team, write "Team."</div>
Team Name (for teams)	<div>If you are participating in the Competition as part of a team, please specify your team's name. If you are participating as an individual participant, leave this field blank.</div>
Title of Your Project (no more than 300 characters)	<div>Please provide the title of your project describing the proposed solution to the selected task. The project title must be written without quotation marks, starting with a capital letter, and without a full stop at the end. Once the application has been submitted, the project title cannot be changed.</div>
Brief Description of Your Project (no more than 2,500 characters)	<div>This section is a textual presentation of your project, reflecting the main idea, target audience, content, and the most significant expected results. For the experts evaluating your application, this field should provide a clear and comprehensive answer to the question: "What does the applicant intend to do, and for whom?"</div>
Justification of the Project's Significance (no more than 2,500 characters)	<div>Describe the specific problems that your project aims to address.</div>
Project Goal (no more than 1,000 characters)	<div>Indicate no more than three goals of the project (typically, one main goal is formulated).</div>
Project Objectives	<div>List all the objectives set within the project.</div>
Expected Project Results	<div>List all the expected results of the project.</div>
Key Steps in Project Implementation	<div>Describe the step-by-step logic of the project implementation.</div>
Quantitative Project Results	<div>Describe the quantitative results obtained from the project, if any practical work has been completed. If no quantitative results have been obtained, leave this field blank.</div>
Qualitative Project Results	

	<i>Describe the qualitative (non-measurable) results of the project, if any practical work has been completed. If no qualitative results have been obtained, leave this field blank.</i>
Further Development of the Project (no more than 2,500 characters)	
	<i>Describe your plans for the further development of the project.</i>
Additional Comments (no more than 2,500 characters)	
	<i>You may include any additional information about your project that you consider important to record.</i>

2. Information about the mentor:

In this section, please fill in the form about your mentor, if your project has one. If your project doesn't have a mentor, simply leave this part blank.

Full name of the project mentor:	
	<i>Please provide the full name of the mentor in the nominative case. For example, Ivan Ivanovich Ivanov</i>
Mentor's workplace:	
	<i>Please provide the full name and official address of your mentor's workplace</i>
Position of the project mentor	
	<i>Please specify the full title of the position that the mentor holds at their place of employment.</i>
Additional information about the project mentor's experience in successful project management:	
	<i>Describe the mentor's experience with successful project management.</i>
Mentor's work phone number:	
	<i>Please specify the work phone number of your project mentor</i>
Mentor's mobile phone:	
	<i>Please specify the mobile phone number of your project mentor</i>
Mentor's e-mail:	
	<i>Please specify e-mail address of your project mentor</i>
Mentor's education	
	<i>Please specify your mentor's educational background, for example:</i> <ul style="list-style-type: none"> - Secondary - Secondary professional education - Unfinished higher education - Higher education - More than one higher - I have a degree
Consent to the Processing of Personal Data	

If you have a mentor and have completed section 2 of the "Mentor Information" form, please ask your mentor to complete and sign consent to the processing of their personal data (Appendix No. 10, 11 of the Competition Rules). The handwritten consent must be scanned and uploaded to cloud storage in an electronic document format. Please provide the link to the folder in cloud storage where the electronic consent document is located. Ensure that the link is accessible and functional..

3. Information about the project team:

In this section, please fill out the form for each member (copy paste below first section) of your project team. If you are a solo participant, please fill in the form only for yourself.

Full name of the team member	
-------------------------------------	--

Write the full name of the team member in the nominative case, for example, "Ivan Ivanovich Ivanov"

Age of the team member in full years	
<i>Please specify your age at the time of application</i>	
The role of a team member in a project	
<i>Please specify the position or role of the team member in relation to the declared project</i>	
Current level of education:	
<i>Please specify the level of education of the team member at the time of application, such as class or year of study</i>	
Educational institution:	
<i>Please provide the full name of the educational institution that the team member attends at the time of application</i>	
E-mail:	
<i>Please provide valid e-mail address</i>	
Phone number:	
<i>Please provide your phone number</i>	
Social media profile link	
<i>Please provide a link to your social media profile (optional)</i>	
Has the contestant previously participated in any other similar competitions?	
<i>Please let us know if the contestant has participated in any other competitions with a similar focus or theme. If so, please provide their names and details of their participation</i>	

(Copy and paste here the same kind of information for additional team members)

4. Information about the accompanying presentation:

Link to the presentation on the cloud:	
<i>Please specify the link to the folder in the cloud storage where the presentation file can be found. Ensure that the link is active and functional. Also, ensure that the presentation file has been uploaded to the cloud in PDF format.</i>	
Number of slides in the presentation:	
<i>Please specify the number of slides in your presentation, including the title page.</i>	

5. Agreement with the Competition Rules:

By submitting this application individual or team confirms the full and unconditional acceptance of the Regulations for the Future Makers: Junior Cup competition organized by the Andrey Melnichenko Foundation.

6. Consent to the processing of personal data

When submitting a project application, each participant or member of the competition team must attach their consent to the processing of personal data. To do so, you must complete and sign a consent form for the processing of personal data (Appendixes 10 and 11 of the Regulations). An adult participant who is the subject of the personal data procession gives their consent by completing and signing the consent form for adult participants (Appendix 10 of these Regulations). A minor participant who is also the subject of the personal data procession gives their consent through their legal representative (a representative of the person whose personal data is being processed) by completing and signing a separate consent form for minors (Appendix 11). All forms must be completed and signed manually.

A link to the cloud storage where the scanned electronic documents of the Consent to the processing of personal data for each individual participant or team member can be found.	
--	--

*Please provide the link to the cloud storage folder where the files are located.
Make sure the link is valid and accessible.*

Appendix № 5
to the Regulations for the Future
Makers: Junior Cup Competition
of Andrey Melnichenko Foundation

**THE NUMBER OF NOMINATIONS, LEAGUES AND CATEGORIES OF
PARTICIPANTS AND WINNERS IN EACH STAGE
OF THE FUTURE MAKERS: JUNIOR CUP COMPETITION
OF THE ANDREY MELNICHENKO FOUNDATION**

The qualifying stage of the Future Makers: Junior Cup organized by the Andrey Melnichenko Foundation:

Nomination	League and category	Number of finalists
Engineering Cup	School League Students in grades 5–11 who are citizens of the Russian Federation and are enrolled in general education institutions pursuing basic general education or secondary general education programs at the time of application.	3
Engineering Cup	College League First- to fourth-year students enrolled in secondary vocational education institutions at the time of application who are citizens of the Russian Federation or citizens of the countries listed in Appendix No. 9 to these Regulations.	3
Engineering Cup	University League First- to sixth-year students enrolled in bachelor's degree, specialist degree, or basic higher education programs at higher education institutions, as well as master's and postgraduate students aged 25 or younger at the time of application, who are citizens of the Russian Federation or citizens of the countries listed in Appendix No. 9 to these Regulations.	3
Engineering Cup	Young Professionals League — “Start” Category An employee who has entered employment in their field of study or profession for the first time and meets all of the following criteria: - Aged 18–25; - Was hired within two years of obtaining an educational qualification; - Has between one and three years of continuous employment with the same company or enterprise; - Is a citizen of the Russian Federation or a citizen of a country listed in Appendix No. 9 to these Regulations. Additional eligibility criteria for employees (which do not replace the primary criteria for the “Start” category): - An employee who participated in an employer-sponsored education program and was employed by the enterprise/company during practical training as part of their studies; - An employee who is a student participating in a dual education program as part of employer-sponsored training; - An employee who gained work experience outside their field of study while pursuing education in a relevant discipline (e.g., part-time employment in services, sales, etc.) before joining the enterprise/company; - An employee who graduated in a non-technical discipline (e.g., economics, logistics, etc.) and was hired into a corporate function department in a role corresponding to their qualification.	

	<p>Industries and Areas of Specialization of the Enterprises and Companies Employing Participants:</p> <ul style="list-style-type: none"> - Extraction and production of raw materials (coal, oil, gas, mineral resources, etc.); - Processing of raw materials into finished products (chemical industry, metallurgy, mechanical engineering, etc.); - Energy sector (electricity generation and thermal power generation); - Engineering and intellectual activities (development and design of industrial processes and production facilities related to electrical engineering, electronics, mining, chemical engineering, and mechanical engineering, as well as industrial construction, systems engineering, and occupational and industrial safety). 	
Engineering Cup	<p>Young Professionals League — “Growth” Category</p> <p>An employee hired to work in their field of study or profession who meets all of the following criteria:</p> <ul style="list-style-type: none"> - Aged 26–35; - Has between one and three years of continuous employment with the same company or enterprise; - Is a citizen of the Russian Federation or a citizen of a country listed in Appendix No. 9 to these Regulations. <p>Additional eligibility criteria for employees (which do not replace the primary criteria for the “Growth” category):</p> <ul style="list-style-type: none"> - An employee who participated in an employer-sponsored education program and was employed by the enterprise/company during practical training as part of their studies; - An employee who is a student participating in a dual education program as part of employer-sponsored training; - An employee who gained work experience outside their field of study while pursuing education in a relevant discipline (e.g., part-time employment in services, sales, etc.) before joining the enterprise; - An employee who graduated in a non-technical discipline (e.g., economics, logistics, etc.) and was hired into a corporate function department in a role corresponding to their qualification. <p>Industries and Areas of Specialization of the Enterprises and Companies Employing Participants:</p> <ul style="list-style-type: none"> - Extraction and production of raw materials (coal, oil, gas, mineral resources, etc.); - Processing of raw materials into finished products (chemical industry, metallurgy, mechanical engineering, etc.); - Energy sector (electricity generation and thermal power generation); - Engineering and intellectual activities (development and design of industrial processes and production facilities related to electrical engineering, electronics, mining, chemical engineering, and mechanical engineering, as well as industrial construction, systems engineering, and occupational and industrial safety). 	
Cities Cup	<p>School League</p> <p>Students in grades 5–11 who are citizens of the Russian Federation and are enrolled in general education institutions pursuing basic general education or secondary general education programs at the time of application.</p>	3
Cities Cup	<p>College League</p> <p>First- to fourth-year students enrolled in secondary vocational education institutions at the time of application who are citizens of the Russian Federation or citizens of the countries listed in Appendix No. 9 to these Regulations.</p>	3

Cities Cup	<p>University League</p> <p>First- to sixth-year students enrolled in bachelor's degree, specialist degree, or basic higher education programs at higher education institutions, as well as master's and postgraduate students aged 25 or younger at the time of application, who are citizens of the Russian Federation or citizens of the countries listed in Appendix No. 9 to these Regulations.</p>	3
Cities Cup	<p>Young Professionals League — “Start” Category</p> <p>An employee who has entered employment in their field of study or profession for the first time and meets all of the following criteria:</p> <ul style="list-style-type: none"> - Aged 18–25; - Was hired within two years of obtaining an educational qualification; - Has between one and three years of continuous employment with the same company or enterprise; - Is a citizen of the Russian Federation or a citizen of a country listed in Appendix No. 9 to these Regulations. <p>Additional eligibility criteria for employees (which do not replace the primary criteria for the “Start” category):</p> <ul style="list-style-type: none"> - An employee who participated in an employer-sponsored education program and was employed by the enterprise/company during practical training as part of their studies; - An employee who is a student participating in a dual education program as part of employer-sponsored training; - An employee who gained work experience outside their field of study while pursuing education in a relevant discipline (e.g., part-time employment in services, sales, etc.) before joining the enterprise/company; - An employee who graduated in a non-technical discipline (e.g., economics, logistics, etc.) and was hired into a corporate function department in a role corresponding to their qualification. <p>Industries and Areas of Specialization of the Enterprises and Companies Employing Participants:</p> <ul style="list-style-type: none"> - Extraction and production of raw materials (coal, oil, gas, mineral resources, etc.); - Processing of raw materials into finished products (chemical industry, metallurgy, mechanical engineering, etc.); - Energy sector (electricity generation and thermal power generation); - Engineering and intellectual activities (development and design of industrial processes and production facilities related to electrical engineering, electronics, mining, chemical engineering, and mechanical engineering, as well as industrial construction, systems engineering, and occupational and industrial safety). 	3
Cities Cup	<p>Young Professionals League — “Growth” Category</p> <p>An employee hired to work in their field of study or profession who meets all of the following criteria:</p> <ul style="list-style-type: none"> - Aged 26–35; - Has between one and three years of continuous employment with the same company or enterprise; - Is a citizen of the Russian Federation or a citizen of a country listed in Appendix No. 9 to these Regulations. <p>Additional eligibility criteria for employees (which do not replace the primary criteria for the “Growth” category):</p> <ul style="list-style-type: none"> - An employee who participated in an employer-sponsored education program and was employed by the enterprise/company during practical training as part of their studies; - An employee who is a student participating in a dual education program as part of employer-sponsored training; - An employee who gained work experience outside their field of study 	3

	<p>while pursuing education in a relevant discipline (e.g., part-time employment in services, sales, etc.) before joining the enterprise;</p> <ul style="list-style-type: none"> - An employee who graduated in a non-technical discipline (e.g., economics, logistics, etc.) and was hired into a corporate function department in a role corresponding to their qualification. <p>Industries and Areas of Specialization of the Enterprises and Companies Employing Participants:</p> <ul style="list-style-type: none"> - Extraction and production of raw materials (coal, oil, gas, mineral resources, etc.); - Processing of raw materials into finished products (chemical industry, metallurgy, mechanical engineering, etc.); - Energy sector (electricity generation and thermal power generation); - Engineering and intellectual activities (development and design of industrial processes and production facilities related to electrical engineering, electronics, mining, chemical engineering, and mechanical engineering, as well as industrial construction, systems engineering, and occupational and industrial safety).

EVALUATING CRITERIA FOR THE QUALIFYING STAGE OF THE FUTURE MAKERS: JUNIOR CUP COMPETITION OF THE ANDREY MELNICHENKO FOUNDATION

General Evaluation Criteria for All Nominations

Maximum score under general criteria: 40 points

№	Criterion	Score	Evaluation Indicators
1.	Relevance to the Task and Practical Significance	9-10	The solution fully corresponds to the stated task. A specific problem and target audience are defined. The project's practical value is clearly justified and has measurable significance.
		7-8	The solution corresponds to the task. The problem and scope of application are identified, but the justification of their significance is only partially presented.
		4-6	The solution partially corresponds to the task. The problem is formulated in general terms, and practical applicability is minimally substantiated.
		0-3	The solution does not correspond to the task. Practical value is either not justified or absent.
2.	Novelty and Originality	9-10	An analysis of three or more analogues has been conducted. The solution demonstrates uniqueness or a significant creative reworking of known approaches.
		7-8	An analysis of one or two analogues has been conducted. The solution offers a noticeable and reasoned improvement compared to existing ones.
		4-6	The solution provides only a minor improvement without a detailed comparison with analogues.
		0-3	No analysis of analogues is presented. The solution is a complete copy of existing ones.
3.	Development Potential and Scalability	9-10	Specific ways to scale the project and adapt it to new conditions are described. The project's development potential is supported by realistic scenarios.
		7-8	The development potential is indicated, but the scaling methods are not defined in steps.
		4-6	The development potential is limited to a narrow field of application. Opportunities for scaling are not described.
		0-3	The project is highly specialised, with no potential for growth or adaptation.
4.	Quality of Project Description and Presentation	9-10	The information is presented fully in accordance with the Competition Regulations. The content is consistent, goals and objectives are clearly formulated. Visual materials are high-quality and informative. The text is easy to read and error-free.

		7-8	The information is generally complete, but there are minor inconsistencies in logic or phrasing. The presentation complies with the Competition Regulations with minor deviations. Visual materials are present but could be improved.
		4-6	The information is incomplete or presented inconsistently. Goals and objectives are vaguely formulated. There are significant deviations from the Regulations. Visual materials are missing or of poor quality. The text is difficult to read.
		0-3	The information is fragmented, or key elements are missing. Requirements for structure and content are not met. The presentation lacks visual organisation; the text is hard to read and contains grammatical errors on nearly every slide.

Additional Criteria for the “Engineering Cup” Nomination

Maximum score under nomination-specific criteria: 30 points

№	Criterion	Score	Evaluation Indicators
5.	Technical Elaboration	9-10	A complete theoretical model or calculations are presented. The technical implementation of the project is thoroughly justified.
		7-8	A theoretical model is included but contains minor inaccuracies. The justification of technical implementation requires improvement.
		4-6	The theoretical model is presented only partially. The feasibility of technical implementation is weakly justified.
		0-3	The theoretical model is absent or incorrect. The technical implementation is unjustified.
6.	Technological Feasibility	9-10	The solution is based on available technologies. Key production requirements are considered. An implementation plan is provided.
		7-8	The technologies used are generally adequate. The implementation plan requires more detail.
		4-6	The choice of technologies is suboptimal for the task. Key production factors are not considered.
		0-3	The solution is technologically unfeasible using the stated approaches.
7.	Economic Feasibility	9-10	A cost analysis has been conducted. The potential economic benefits or efficiency are justified.
		7-8	Costs and potential benefits are estimated but based on assumptions.
		4-6	Costs are indicated approximately; benefits are described without quantitative indicators.
		0-3	No economic justification is provided. Costs significantly exceed the potential benefits.

Additional Criteria for the “Cities Cup” Nomination

Maximum score under nomination-specific criteria: 30 points

№	Criterion	Score	Evaluation Indicators
---	-----------	-------	-----------------------

5.	Integration into Infrastructure	9-10	The solution fully considers existing urban infrastructure and regulations. An integration plan is provided.
		7-8	The solution is generally compatible with the urban environment. An integration plan exists but requires more detail.
		4-6	The feasibility of the solution is questionable due to unconsidered infrastructure limitations.
		0-3	The solution is incompatible with the urban environment. Integration is impossible.
6.	Impact on the Urban Environment	9-10	The solution demonstrates a proven positive impact on environmental quality, comfort, or urban safety.
		7-8	The positive impact on the urban environment is described and justified.
		4-6	The impact is described in general terms without specific measurable indicators.
		0-3	The impact on the urban environment is unjustified or the solution may have negative consequences.
7.	Economic and Environmental Efficiency	9-10	A cost analysis and proof of positive environmental impact confirming overall efficiency are provided.
		7-8	Economic and environmental benefits are described, but calculations contain simplifications.
		4-6	Efficiency is described qualitatively without supporting calculations.
		0-3	Economic and environmental efficiency is not justified.

Appendix No. 7
to the Rules for the Future
Makers: Junior Cup Competition
of the Andrey Melnichenko
Charitable Foundation

EVALUATION CRITERIA FOR THE FINAL STAGE
OF THE FUTURE MAKERS: JUNIOR CUP COMPETITION
OF THE ANDREY MELNICHENKO FOUNDATION

General Evaluation Criteria for All Nominations

Maximum score under general criteria: 50 points

№	Criterion	Score	Evaluation Indicators
1.	Relevance to the Task and Practical Significance	9-10	The solution fully corresponds to the stated task. A specific problem and target audience are defined. The project's practical value is clearly justified and has measurable significance.
		7-8	The solution corresponds to the task. The problem and scope of application are identified, but the justification of their significance is only partially presented.
		4-6	The solution partially corresponds to the task. The problem is formulated in general terms, and practical applicability is minimally substantiated.
		0-3	The solution does not correspond to the task. Practical value is either not justified or absent.
2.	Novelty and Originality	9-10	An analysis of three or more analogues has been conducted. The solution demonstrates uniqueness or a significant creative reworking of known approaches.
		7-8	An analysis of one or two analogues has been conducted. The solution offers a noticeable and reasoned improvement compared to existing ones.
		4-6	The solution provides only a minor improvement without a detailed comparison with analogues.
		0-3	No analysis of analogues is presented. The solution is a complete copy of existing ones.
3.	Development Potential and Scalability	9-10	Specific ways to scale the project and adapt it to new conditions are described. The project's development potential is supported by realistic scenarios.
		7-8	The development potential is indicated, but the scaling methods are not defined in steps.
		4-6	The development potential is limited to a narrow field of application. Opportunities for scaling are not described.
		0-3	The project is highly specialised, with no potential for growth or adaptation.
4.	Quality of Project Description and Presentation	9-10	The information is presented fully in accordance with the Competition Regulations. The content is consistent, goals and objectives are clearly formulated. Visual materials are high-quality and

			informative. The text is easy to read and error-free.
		7-8	The information is generally complete, but there are minor inconsistencies in logic or phrasing. The presentation complies with the Competition Regulations with minor deviations. Visual materials are present but could be improved.
		4-6	The information is incomplete or presented inconsistently. Goals and objectives are vaguely formulated. There are significant deviations from the Regulations. Visual materials are missing or of poor quality. The text is difficult to read.
		0-3	The information is fragmented, or key elements are missing. Requirements for structure and content are not met. The presentation lacks visual organisation; the text is hard to read and contains grammatical errors on nearly every slide.
5.	Quality of Project Defence (Presentation Delivery)	9-10	The presenter confidently covers all aspects of the project, including technical details and calculations. Provides comprehensive answers with specific data and examples. Speech is clear and fluent, free of filler words, and delivered at a comfortable pace. The presentation fits precisely within the allotted time (± 30 seconds).
		7-8	The presenter is confident with the main information but may make 1–2 minor inaccuracies. Answers simple questions confidently, but more complex ones with slight difficulty. The presentation exceeds or falls short of the time limit by 1–2 minutes. Speech is understandable, though 2–3 filler words, 1–2 grammatical errors, or slight pace variations are present.
		4-6	The presenter knows the general concept but cannot explain key implementation details. Answers most questions vaguely without supporting data. Significant time deviation (more than 3 minutes). Speech is hesitant, with frequent pauses, more than five filler words, multiple linguistic errors, and an excessively fast or slow pace.
		0-3	The presenter cannot explain the basic principles of the project. Does not answer questions or provides answers unrelated to the project's content. The presentation exceeds the time limit by more than 5 minutes or lasts less than half of the allotted time. Speech is unclear and contains serious linguistic errors, making comprehension impossible.

Additional Criteria for the “Engineering Cup” Nomination

Maximum score under nomination-specific criteria: 30 points

№	Criterion	Score	Evaluation Indicators
6.	Technical Elaboration	9-10	A complete theoretical model or calculations are presented. The technical implementation of the project is thoroughly justified.
		7-8	A theoretical model is included but contains minor inaccuracies. The justification of technical implementation requires improvement.

		4-6	The theoretical model is presented only partially. The feasibility of technical implementation is weakly justified.
		0-3	The theoretical model is absent or incorrect. The technical implementation is unjustified.
7.	Technological Feasibility	9-10	The solution is based on available technologies. Key production requirements are considered. An implementation plan is provided.
		7-8	The technologies used are generally adequate. The implementation plan requires more detail.
		4-6	The choice of technologies is suboptimal for the task. Key production factors are not considered.
		0-3	The solution is technologically unfeasible using the stated approaches.
8.	Economic Feasibility	9-10	A cost analysis has been conducted. The potential economic benefits or efficiency are justified.
		7-8	Costs and potential benefits are estimated but based on assumptions.
		4-6	Costs are indicated approximately; benefits are described without quantitative indicators.
		0-3	No economic justification is provided. Costs significantly exceed the potential benefits.

Additional Criteria for the “Cities Cup” Nomination

Maximum score under nomination-specific criteria: 30 points

№	Criterion	Score	Evaluation Indicators
6.	Integration into Infrastructure	9-10	The solution fully considers existing urban infrastructure and regulations. An integration plan is provided.
		7-8	The solution is generally compatible with the urban environment. An integration plan exists but requires more detail.
		4-6	The feasibility of the solution is questionable due to unconsidered infrastructure limitations.
		0-3	The solution is incompatible with the urban environment. Integration is impossible.
7.	Impact on the Urban Environment	9-10	The solution demonstrates a proven positive impact on environmental quality, comfort, or urban safety.
		7-8	The positive impact on the urban environment is described and justified.
		4-6	The impact is described in general terms without specific measurable indicators.
		0-3	The impact on the urban environment is unjustified or the solution may have negative consequences.
8.	Economic and Environmental Efficiency	9-10	A cost analysis and proof of positive environmental impact confirming overall efficiency are provided.
		7-8	Economic and environmental benefits are described, but calculations contain simplifications.
		4-6	Efficiency is described qualitatively without

			supporting calculations.
		0-3	Economic and environmental efficiency is not justified.

**REQUIREMENTS FOR THE DESIGN
OF THE ACCOMPANYING PROJECT PRESENTATION
IN THE FUTURE MAKERS: JUNIOR CUP
OF THE ANDREY MELNICHENKO FOUNDATION**

General rules:

Description of the project:

- The presentation should reflect the process of creating, implementing, and analyzing the project.
- Strict adherence to the project's structure, including the problem statement, purpose, objectives, description of the project stages, resources, and results (conclusions).

Presentation Template:

- A unified template is available to all participants on the competition website and in the introductory module of the online course for the project school, which will be published no later than December 15th, 2026.
- The presentation template defines the structure for presenting the material and provides a basic presentation design. Individual participants and teams participating in the Competition are not required to use the template's design when preparing their presentations.

Volume and structure:

- The presentation should contain no more than 16 slides.
- The first (title) slide should include the following information:
 - The name of the project;
 - Information about the author(s) (full name, education institution, city);
 - The year the project was submitted to the competition.
- The final slide should be a call to action. Example for the Cities Cup “Increase the quality of life for thousands of citizens. Let’s implement this solution”. Example for the Engineering Cup: “Increase the effects of recourses’ usage at your enterprise. Implement our solution!”.

Slide numbering:

- Each slide should have a number in the lower right corner.
- The content of the slide (text, images, tables, etc.) should not hide the slide number.

Recommendations for slide design:

Location of information:

- The information should be placed horizontally.
- The main content (text and graphics) should be centered and evenly distributed.

Text:

- Headings should be at least 24 points.
- Main text should be at least 18 points.

- Use a simple, sans-serif font, such as Arial or Calibri).
 - It is prohibited to use curved text, shadows, or other decorative effects, such as WordArt.
- Visual elements:

- Graphic and illustrative materials (photos, drawings, diagrams) should be of high quality and appropriate.
- Use a variety of slide types: text, images, tables, charts in combination.
- Avoid overloading slides with information - focus on one key message per slide.

Color scheme and style:

- Use no more than three primary colors throughout the presentation.
- The color of text and background should have sufficient contrast for being readable.
- Avoid excessive use of animations and slide transition effects.

Additional elements:

- Auxiliary elements, such as navigation buttons, should not distract the viewers from the main content.
- When using charts and tables, it is important to ensure that:
 - Diagrams are clear and understandable, with clear labels;
 - Tables should be minimalistic, with an emphasis on the most important data.

Technical Requirements

File Name:

- The multimedia presentation file name should consist of the Last name of the individual participant (for individual participants) or the name of the team of participants (for teams of participants) and the full name of the project (for example: Ivanov_EnergyEfficiency.pdf or THE NAME OF THE TEAM_EnergyEfficiency.pdf).

File format:

- The presentation should be saved in PDF format to prevent compatibility issues.

File Size:

- The total size of the file should not exceed 25 MB (for the convenience of transferring and downloading).

**LIST OF COUNTRIES WHOSE CITIZENS ARE ELIGIBLE TO PARTICIPATE
IN THE FUTURE MAKERS: JUNIOR CUP COMPETITION
ORGANISED BY THE ANDREY MELNICHENKO FOUNDATION**

1. The People's Democratic Republic of Algeria;
2. The Arab Republic of Egypt;
3. The Argentine Republic;
4. The Bolivarian Republic of Venezuela;
5. The State of Kuwait;
6. The State of Palestine;
7. The Islamic Republic of Iran;
8. The Islamic Republic of Pakistan;
9. The Kyrgyz Republic;
10. The People's Republic of China;
11. The Kingdom of Bahrain;
12. The Kingdom of Morocco;
13. The Kingdom of Saudi Arabia;
14. The Kingdom of Thailand;
15. Malaysia;
16. The Plurinational State of Bolivia (Bolivia);
17. The People's Republic of Bangladesh;
18. The United Arab Emirates;
19. The Republic of Azerbaijan;
20. The Republic of Armenia;
21. The Republic of Belarus;
22. The Republic of Honduras;
23. The Republic of India;
24. The Republic of Indonesia;
25. The Republic of Kazakhstan;
26. The Republic of Kenya;

27. The Republic of Cuba;
28. The Republic of Moldova;
29. The Republic of Senegal;
30. The Republic of Tajikistan;
31. The Republic of Uzbekistan;
32. The Socialist Republic of Vietnam;
33. Turkmenistan;
34. The Federal Democratic Republic of Ethiopia;
35. The Federative Republic of Brazil;
36. The Federal Republic of Nigeria;
37. The Republic of South Africa.

Appendix № 10
to the Regulations for the Future
Makers: Junior Cup Competition
of Andrey Melnichenko Foundation

**CONSENT TO THE PROCESSING OF PERSONAL DATA
OF AN ADULT PARTICIPANT OR MENTOR OF A PARTICIPANT
IN THE FUTURE MAKERS: JUNIOR CUP COMPETITION
ORGANISED BY THE ANDREY MELNICHENKO FOUNDATION**

I, _____,

(Full Name, Patronymic, Middle, or Additional Names)

Residing at (address):

(full address of residence: country, region, city, street, house number, apartment number, postal code)

Passport data (passport type, series, number, date of issue, issuing authority):

(Type of identity document, Document number, Date of issue, Authority that issued the document)

Registration address (Optional, if there is a citizen's registration address in the country of residence written in your passport/ identity document):

(full address of registration: country, region, city, street, house number, apartment number, postal code)

Date of birth:

(Date of birth, month of birth, and year of birth are all required in the format "``DD.MM.YYYY")

Citizenship:

(citizenship at the time of submitting an application for the Competition)

Phone number (with country code):

(in the following format: +7 (_____) 123-45-67)

Email Address:

(in the following format: hello@yandex.ru / hello@mail.ru / hello@gmail.com)

Current level of education:

(Please indicate your level of education at the time you applied, for example, "12th Grade")

Name of the educational institution or place of employment:

(If you are currently studying and not working, please provide the full name of your educational institution. If you have completed your education and are currently employed, please provide the name of the company or organization where you work)

...hereby, acting freely and of my own accord, I hereby give my consent to the Andrey Melnichenko Charitable Foundation (OGRN 1167700068370, TIN 7725335279, hereinafter referred to as "the Foundation") for the processing and use of my personal information specified in this document. This information includes my last name, first name, middle initial, date of birth, citizenship, passport details, registered address, current address, place of study, educational level, home phone number, mobile phone number, email address, and results of participation in the **"Future Makers: Junior Cup" competition organized by the Andrey Melnichenko Foundation** (hereinafter referred to as **the Competition**).

The purpose of collecting and processing personal data is to facilitate participation in the competition and to provide information to authorized authorities, donors, and the public about the results of the competition through the Foundation's website. Additionally, the data will be stored in a database of participants and used to send invitations for future competitions and events organized by the Andrey Melnichenko Foundation.

By submitting my personal information, I grant the Foundation permission to perform various actions with my data, including collecting, recording, organizing, storing, updating, extracting, using, sharing, anonymizing, blocking, deleting, and destroying it. These actions may involve both automated and manual processes.

I also authorize the Andrey Melnichenko Foundation to take photos and videos of me participating in events related to the Competition or other events organized by the Foundation. These photos and videos can be used freely in internal and external communications of the Foundation, including but not limited to booklets, videos, and the internet. However, the photos and videos must not harm my dignity or reputation.

I am familiar with the procedures for conducting the competition in accordance with the Regulations.

This consent is valid from the date of its signing and will remain in effect indefinitely. It will cease to be valid upon my written withdrawal of consent, which can be done by sending a notification via email to contact@aimfond.ru, or by mailing a letter to the Foundation's postal address: 53 Dubininskaya str., building 5, Moscow, 115054, Russia, VI, No. 6.

I confirm that I have read the provisions of Federal Law No. 152-FZ dated July 27, 2006, "On Personal Data" and that the rights and obligations in the field of personal data protection have been fully explained to me.
